Training in Neurosurgery: Proceedings of the Conference on Neurosurgical Training and Research, Munich, October 6-9, 1996 (Acta Neurochirurgica Supplement)

An International Conference on "Neurosurgical Training and Reserach" was held in Munich from October 6 – 9, 1996, under the auspices of the EANS, and organized by H.-J. Reulen and H.-J. Steiger. Experts from different countries and neurosurgical organizations have collected information on the present status of resident training in neurosurgery and the mechanisms involved with the training. Various aspects, the recruitment process, the criteria used for selection, the contents and structure of a program, the continuous quality control, exposition to the art of research, fellowships and subspeciality training, etc. have been covered. The present book contains this material and thus provides a unique and comprehensive source of information on the complex of modern neurosurgical training.

" ... The beauty of this work is that it puts in one place the many varied aspects of a neurosurgical training program that one needs to be aware of ... should be required reading for the faculty of any academic training program as well as for others who may have a misconception of what residency training is ... an excellent book for any program director or active faculty member. It should be required reading for all faculty members before the next round of resident interviews ..." Neurosurgery

"... well edited, published to a high standard and will naturally be of interest to those specifically involved in the areas of selection and training ... a useful text for aspirants to surgical training posts ..." British Journal of Neurosurgery

From reader reviews:

Margaret Wright:

Reading a reserve tends to be new life style on this era globalization. With studying you can get a lot of information that can give you benefit in your life. With book everyone in this world could share their idea. Textbooks can also inspire a lot of people. Lots of author can inspire their particular reader with their story or maybe their experience. Not only the storyplot that share in the books. But also they write about the information about something that you need instance. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors these days always try to improve their skill in writing, they also doing some investigation before they write to their book. One of them is this Training in Neurosurgery: Proceedings of the Conference on Neurosurgical Training and Research, Munich, October 6-9, 1996 (Acta Neurochirurgica Supplement).

Greg Little:

Often the book Training in Neurosurgery: Proceedings of the Conference on Neurosurgical Training and Research, Munich, October 6-9, 1996 (Acta Neurochirurgica Supplement) has a lot of knowledge on it. So when you make sure to read this book you can get a lot of profit. The book was authored by the very famous author. Mcdougal makes some research previous to write this book. This kind of book very easy to read you can find the point easily after scanning this book.

Sergio Espinoza:

Many people spending their time by playing outside having friends, fun activity along with family or just watching TV the whole day. You can have new activity to invest your whole day by examining a book. Ugh, ya think reading a book really can hard because you have to bring the book everywhere? It ok you can have the e-book, bringing everywhere you want in your Smart phone. Like Training in Neurosurgery: Proceedings of the Conference on Neurosurgical Training and Research, Munich, October 6-9, 1996 (Acta Neurochirurgica Supplement) which is finding the e-book version. So , why not try out this book? Let's notice.

Mary Lewis:

Guide is one of source of knowledge. We can add our information from it. Not only for students and also native or citizen have to have book to know the update information of year to be able to year. As we know those ebooks have many advantages. Beside many of us add our knowledge, could also bring us to around the world. By the book Training in Neurosurgery: Proceedings of the Conference on Neurosurgical Training and Research, Munich, October 6-9, 1996 (Acta Neurochirurgica Supplement) we can get more advantage. Don't you to be creative people? To become creative person must like to read a book. Just simply choose the best book that ideal with your aim. Don't always be doubt to change your life with this book Training in Neurosurgery: Proceedings of the Conference on Neurosurgical Training and Research, Munich, October 6-

9, 1996 (Acta Neurochirurgica Supplement). You can more pleasing than now.
