El libro presenta una amplia revisión sobre el origen, el desarrollo y las posibilidades pedagógicas que presentan los modelos de formación Blended Learning. Estos modelos combinan recursos online con la educación presencial y presentan el potencial innovador necesario para transformar la enseñanza y el aprendizaje tal como los hemos concebido hasta el momento. La modalidad formativa Blended Learning ha demostrado que sin grandes inversiones los centros de educación superior pueden crecer en número de alumnos, atender a poblaciones estudiantiles dispersas, conocer mejor el progreso de sus estudiantes, mejorar y ampliar la calidad de la oferta académica y, al mismo tiempo, fortalecer su sistema tradicional de enseñanza presencial, resultando ser un medio muy eficaz para hacer frente a los nuevos retos a los que se enfrentan los sistemas de educación superior.
