In recent years, there has been growing interest in Turkey, stemming from the country's developing role in regional and global politics, its expanding economic strength, and its identity as a predominantly Muslim country with secular political institutions and democratic processes. This *Handbook* provides a comprehensive and wide-ranging profile of modern Turkey. Bringing together original contributions from leading scholars with a wide range of backgrounds, this important reference work gives a unique in-depth survey of Turkish affairs, past and present. Thematically organised sections cover:

- Turkish history from the early Ottoman period to the present
- Turkish culture
- Politics and international relations
- Social issues
- Geography
- The Turkish economy and economics

Presenting diverse and often competing views on all aspects of Turkish history, politics, society, culture, geography, and economics, this handbook will be an essential reference tool for students and scholars of Middle East studies, comparative politics, and culture and society.
