Planning to have a baby is an exciting time for any family, but difficulties with conception can quickly turn excitement into anxiety and worry. For 14 percent of couples in the United States, creating a life is not the miraculous experience they expected, but rather one filled with stress, trips to the doctor, and invasive procedures. But infertility treatment doesn't have to be invasive and distant. *In Curing Infertility with Ancient Chinese Medicine*, fertility expert Dr. Yaron Seidman teaches couples how to live healthier, more balanced lives and create an environment where a baby can grow without resorting to surgery.

Curing Infertility with Ancient Chinese Medicine shows you how it is possible to conceive even when Western medicine has deemed it impossible. Dr. Seidman explains in a clear, concise, and easy-to-follow way how patients can use the Hunyuan Method to dramatically increase their ability to conceive in a healthy, natural way and improve overall health using ancient Chinese herbal medicine.

Primarily intended for infertility patients, *Curing Infertility with Ancient Chinese Medicine* is also aimed at modern Chinese medical practitioners, most of whom lack any training in the classical ways. Inside, Dr. Seidman shows time and time again that it is, in fact, possible to conceive.
