Preventing Ideological Violence: Communities, Police and Case Studies of "Success" (International Law, Crime, and Politics)

Popular conceptions of global ideological violence reduction efforts rely heavily on images of "get tough" approaches to crime. Experience has shown, however, that traditional police responses often do not offer comprehensive solutions for curtailing the roots of ideological violence. *Preventing Ideological Violence: Communities, Police and Case Studies of 'Success'* brings together contributions from experienced community activists, police personnel, and researchers who recount their experiences with police-community partnerships. Featuring case studies from Northern Ireland, Britain, and the United States which illustrate both the benefits and drawbacks associated with community-police partnerships, this collection is a distinct contribution to the fields of law enforcement and international law.
