Stage Lighting for Theatre Designers

Nigel Morgan

Stage Lighting for Theatre Designers Nigel Morgan
The primary aim of this book is to help the emerging theatre lighting designer acquire more knowledge of and insight into how light can be used in a theatre production. It should also be useful for other theatre personnel, such as the director who may wish to advance their ideas of the contribution lighting can make to the theatre. Clearly no book is a substitute for practical hands-on experience, but this book is both a springboard and a thorough guide to all the processes involved.
