## **Valuing computers in groups: How to appraise large inventories without spending a fortune** Mr.

Robert J. Zises ASA

Introduction to the process of appraising large quantities of assets using a "grouped asset" methodology which offers previously unattainable economy, efficiency and reliability compared to asset-by-asset appraisals in many situations. Explains the differences between grouped, asset-by-asset, and mass appraising, provides an understanding of where and when a "grouped asset" process is appropriate, as well as describing the minimum information required to adequately perform valuations using the "grouped asset" technique.
