Author Unknown

Prokaryotes: 1 (Pathogenesis & Host Specificity in Plant Diseases) Author Unknown

Forms part of the three-volume set, *Pathogenesis & Host Specificity in Plant Diseases*, and deals with pathogenesis and host specificity in plant pathogenic prokaryotes.

Pathogenesis & Host Specificity in Plant Diseases as a whole is the first complete publication covering the mechanism of host specificity and pathogenesis in plant diseases, bringing together all knowledge about plant pathology into one fully comprehensive source. The main aim of the work is to compile, critically analyze and correlate the information available on all aspects of pathogenesis and host specificity in important plant-pathogen systems representing different types of parasitism and symbiotic, mutualistic and antagonistic associations. Over 100 authors have contributed state-of-the-art chapters, all of whom are internationally recognised as leading experts in their fields. Subject matter is clear and readable throughout and is supported by clear diagrams, tables and photographs.

Each individual volume is available separately or in a three-volume set.
