The Complete Guide to Investing in Short Term Trading: How to Earn High Rates of Returns Safely Alan Northcott

Short-term trading refers to the practice of buying and selling financial instruments within the same trading week or, at most, a few weeks. Short-term traders buy and sell stocks over a few days or weeks in the hope that their stocks will continue climbing in value for the time they own them, making for quick and, often, huge profits. Some of the more commonly traded financial instruments are stocks, stock options, currencies, and futures contracts such as equity index futures, interest rate futures, and commodity futures.

Short-term trading was once the preserve of banks, financial firms, and professional investors. Many traders are bank or investment firms employees working in equity investment and fund management. As with many other business segments, the Internet, technology, and legislative changes have opened up this attractive marketplace to a new breed of individual investors and speculators working part-time. You and I can now stand on an even playing field with the largest banks, wealthiest individuals, and trading institutions from the comfort of home.

Short-term trading can provide you with very high and secure rate of return as high as 12%, 18%, 24%, or even 300%. If performed correctly, short-term trading can far outpace all other investment techniques. The key is to know how to perform this process correctly. This all sounds great, but what is the catch? There really is none, except you must know what you are doing! This groundbreaking and exhaustively researched new book will provide everything you need to know to get you started generating high-investment returns with low risk from start to finish.

You will pick up the language of a trader so that you recognize candlestick patterns, advancing and declining issues and volume, call options, and put options. You will know how to find the very best stocks every day, how to read and prosper with stock charts, how to use the New York Stock Exchange tick indicator and trading index (TRIN), the Commodity Channel Index (CCI), the moving average convergence/divergence (MACD), the Dow 30-Day Moving Average. In addition, we took the extra effort and spent an unprecedented amount of time researching, interviewing, e-mailing, and communicating with hundreds of today's most successful investors.

Aside from learning the basics of mutual fund trading you will be privy to their secrets and proven successful ideas. If you are interested in learning essentially everything there is to know about short-term investing as well as hundreds of hints, tricks, and tips on how to earn enormous profits in short-term investing while controlling your investments, then this book is for you.
