Child Abuse and Neglect: Attachment, Development and Intervention David Howe

This exciting new book offers a survey of the field of child abuse and neglect from the perspective of modern developmental attachment theory. The book opens with an account of the theory and describes the ways in which attachment difficulties manifest themselves in children's behaviour. The following three sections look at abuse, neglect, and compound cases of abuse and neglect, backing this up with empirical research evidence and vivid case material. The final section provides a comprehensive review of attachment-based interventions. This is a clear and compelling textbook, anchored in research evidence and geared in its structure to answer the kinds of questions practitioners and student practitioners specialising in child welfare are most likely to ask.
