**Historical Dictionary of Niger (Historical Dictionaries of Africa)** Abdourahmane Idrissa, Samuel Decalo  
Sitting on the cusp between Mediterranean and sub-Saharan Africa, Niger is in many ways a remarkable place, blending in the harsh Sahelian environment a great diversity of cultures and lifestyles to make up a poor but resilient nation. The country was established in the early 20<sup>th</sup> century in what used to be the busy crossroad of exchanges between the kingdoms and empires of West Africa and the Arab-Islamic world. The resulting melting pot is a blend of Western Sudanic cultures, manifest in particular in its food, music, and dance, as well as in the enduring rituals and practices of animist religions, along with a good deal of Arab culture imported through the Islamic religion and a dash of French culture.

The fourth edition of the *Historical Dictionary of Niger* covers the history of the peoples of the Republic of Niger from medieval times to the present. This is done through a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries covering elements of pre-colonial and colonial history, recent politics, cinema, literature, religion, economics, and finance. This book is an excellent access point for students, researchers, and anyone wanting to know more about Niger.
