Methodology and Method in History (RLE Accounting): A Bibliography (Routledge Library Editions: Accounting)

Methodology and Method in History (RLE Accounting): A Bibliography (Routledge Library Editions: Accounting)

This bibliography provides the reader with a comprehensive reference tool that will enhance understanding of methodological issues and enable the user to employ research methods appropriate to their subject of study. It also provides accounting historians a comprehensive data base for the development of papers addressing methodological issues in an accounting history context.

Access to this type of resource is particularly crucial to the development of accounting history research since the number of papers dealing with methodological issues published in accounting history literature is very small. Hence the references in this bibliography are drawn from the literature of general history, economic and business history, legal and social history and philosophy. The scope and range of its contents are broad – references are taken from texts as well as papers published in over 450 journals.
