Primula

John Richards

Primula John Richards

?The classic text on primulas updated and revised by the leading expert, Professor John Richards of the University of Newcastle. Primula is one of the greatest garden genera, in terms of the number of varieties grown and its popularity. It is also among the largest and most widespread - approximately 430 species. This comprehensive title covers: • Major taxonomic revision • History of the exploration and introduction of Primula • Cultivation: temperature, soil and compost, propagation • Pests and Diseases • Evolutionary history • Biological characters used in sectional classification • Heterostyly and homostyly • Phyletic scheme for the sections of Primula • Synopsis of the genus Primula. ?This thorough revision brings this definitive reference work right up to date and incorporates new and improved information for most of the species. For the first time, identification keys are included for all species, and other special features include several newly described species, over 30 new illustrations, and important fresh details on the evolutionary history of Primulas from recent DNA evidence, leading to major changes in classification. The book covers the historical and practical information on the exploration and cultivation of the genus; the evolution of the species; and a chapter on heterostyly and homostyly includes the latest developments in this fascinating subject. However, the bulk of the book is given over to a systematic treatment of each species, including: • valid name and place of publication • synonym • description • chromosome number • breeding behaviour and flowering time • distribution • habitat, including altitudinal range • taxonomic and other general notes • variation • cultivation • hybridization

From reader reviews:

Pamela Dudley:

Book is actually written, printed, or highlighted for everything. You can realize everything you want by a publication. Book has a different type. We all know that that book is important point to bring us around the world. Close to that you can your reading ability was fluently. A book Primula will make you to end up being smarter. You can feel considerably more confidence if you can know about every thing. But some of you think that open or reading a new book make you bored. It is not necessarily make you fun. Why they might be thought like that? Have you looking for best book or acceptable book with you?

Christopher Patton:

Book is to be different for every grade. Book for children until eventually adult are different content. As you may know that book is very important for us. The book Primula had been making you to know about other expertise and of course you can take more information. It is rather advantages for you. The reserve Primula is not only giving you much more new information but also for being your friend when you truly feel bored. You can spend your personal spend time to read your e-book. Try to make relationship with all the book Primula. You never truly feel lose out for everything in the event you read some books.

Carolyn Treece:

This Primula is great publication for you because the content that is certainly full of information for you who always deal with world and still have to make decision every minute. This kind of book reveal it info accurately using great organize word or we can claim no rambling sentences within it. So if you are read that hurriedly you can have whole info in it. Doesn't mean it only offers you straight forward sentences but hard core information with wonderful delivering sentences. Having Primula in your hand like getting the world in your arm, facts in it is not ridiculous 1. We can say that no publication that offer you world with ten or fifteen moment right but this publication already do that. So , this can be good reading book. Heya Mr. and Mrs. hectic do you still doubt that will?

Anna Rangel:

Is it you who having spare time in that case spend it whole day through watching television programs or just lying down on the bed? Do you need something totally new? This Primula can be the answer, oh how comes? A fresh book you know. You are consequently out of date, spending your free time by reading in this fresh era is common not a nerd activity. So what these publications have than the others?
