Women and Politics in Contemporary Japan (ASAA Women in Asia Series) Emma Dalton

This book looks at the gendering of the political system in Japan and the effects of that system on gender equality in national-level politics specifically and wider society more generally. It examines the approach taken by the long-ruling Liberal Democratic Party (LDP) to issues of gender equality in Japan, and the repercussions of that approach on women's political experiences and representation. This book covers a range of themes including the role of the LDP and other major political parties in constructing the modern Japanese political system, the under-representation of women in Japanese politics, women's experiences in party politics and the gendering of government policies. Using in-depth interviews with women members of the national Diet, the book sheds light on how political women negotiate the male-dominated world of Japanese politics.
