The Routledge International Handbook on Hate Crime (Routledge International Handbooks)

This edited collection brings together many of the world's leading experts, both academic and practitioner, in a single volume handbook that examines key international issues in the field of hate crime. Collectively it examines a range of pertinent areas with the ultimate aim of providing a detailed picture of the hate crime 'problem' in different parts of the world. The book is divided into four parts:

- An examination, covering theories and concepts, of issues relating to definitions of hate crime, the individual and community impacts of hate crime, the controversies of hate crime legislation, and theoretical approaches to understanding offending.
- An exploration of the international geography of hate, in which each chapter examines a range of hate crime issues in different parts of the world, including the UK, wider Europe, North America, Australia and New Zealand.
- Reflections on a number of different perspectives across a range of key issues in hate crime, examining areas including particular issues affecting different victim groups, the increasingly important influence of the Internet, and hate crimes in sport.
- A discussion of a range of international efforts being utilised to combat hate and hate crime.

Offering a strong international focus and comprehensive coverage of a wide range of hate crime issues, this book is an important contribution to hate crime studies and will be essential reading for academics, students and practitioners interested in this field.
